

MINUTES

Meeting held on 26-09-2022 at 14:00 at the Joint Operation Centre

Item Number	Item for discussion	Responsible Person/ Institution	Discussions
1.	Opening and Welcoming	Mr. L Van Dyk	Mr. Van Dyk opened & welcomed our mayor, councilors; MMC's Chairperson of CPF's/ CSF's Neighbourhood watches, Farm watches and everyone present.
1.1		Mayor	- Mayor welcomed all & role players, for their partnership. - The whole idea is for the private sector & safety community feel that the JOC – is for more information to more Is to resolve issues quickly and efficiently, and to see the building as an enabler. - We the creature of statue and need to operate in legislation to role in the right process, and to get accredited partnership.
2.	Attendance Register	Secretary	As per attendance list
2.1	Apologies	Mr. L.Van Dyk	- Mr. C Puren – Municipal Manager - Mrs. L Hendricks - Fairview Chairperson - Carri Terblanche - Farm Guards
2.2	JOC Oversight	Mr. L. Van Dyk	- We would like to see the central as a community-based Centre, more than 700 people access the Joc. - There is a CSF on municipality level & District level (on the Municipality level– what we trying to achieve within the municipality, with a different role and function. It has gone through council and through Province (District level). Safety is a corner stone for Exponential. - The municipality has a policy to whom we deal with an accredited NEIGHBOURWOOD WATCHES & CPF's.

			• The Municipality has a policy on who they dealt with accredited Neighbourhood watches & CPF'S. • Mossel Bay will be becoming the second nerve Centre backed by the province if it's approved by the cabinet. • Mossel Bay will be becoming the second nerve Centre backed by the province if it's approved by the cabinet. • Will then have office barriers from the province being host by the Centre for the expanse & capacity of the building. • The police communication is based here within the Southern Cape. And within the Centre. Will also make sure that the other disaster management services will be pulled in this Centre, and to communicate with various other JOC's. • Radio communication – District approved R1million contribution with regards to radio's to be installed in the JOC Centre, that will be able to communicate to 7 different municipalities within our district, <u>Background</u> • The building is owned by the municipality, and structure in a way that an operating budget have been provided, there is a grant that comes from councilors under Section 67 donation that comes from council, were by an operating budget has been given to the Centre to managed, • The management of the Centre is done by the NPC with various directors, run off a financial & operational model, which is created by the partners. • The directors of JOC: Mr. Van Dyk (Chairperson), Lindie Edwards, Carrie Terblanche; Frederick Groenewald, and a new director to be appointed, • The board of Directors met, to appoint a new Centre Manager with 4 operators and an IT Specialist to make sure the CCTV camera's is up and running; the appointed person will start of from 1st December 2022.
3.	Involvement JOC	Mr. L Van Dyk	• Administrative process, run by a system called the collaborator system, internal program were all the complaints is log. • An app is being developed, were an emergency button. Launched the app for the community to find it

			useful – for accounts enquiries and complaints received, panic button for effective tool.
4.	1 ST Responders Training	Mr. Williamson	- Procedures are in place to fly specific strips, busy building a unit to deploy or in ploy the cost will be about R6 million. - Started training our own personal, so they could assist with police. 25 First responders are coming from Outshoorn, busy sorting out the training of getting our own personal. - Armed personal career – tender closed for assessment. - Currently have 2 Quadbikes – to get access to beaches/ bushes do the necessary patrols. - We are building our own tactical unit if province will be coming on boards, will make a big difference in terms of land grabs, they will then make sure resources are in placed in terms of personal, funding demolishing vehicles.
5.	K9 Unit	Mr. L Van Dyk	- Will have to buy dogs or to rent. - The cost of the dog is R90000, and trainer - Will originally start with 6 digs to give the ability to do in the southern Cape what we must do - Will originally start with 6 dogs to give the ability in the Southern Cape.
6.	Co-Ordinating Ability	Mr. L Van Dyk	- Will be going into council, to assist with other municipalities: - Mossel Bay will be signing up with Hessequa & George District because they have the capacity to render service, we will then be able to assist the other municipalities to as far as we can. - Will be also signing an agreement with other municipalities which include Cape Town to make sure we can have the same ability in terms of when will be needing assistance. - If we want a stabile Mossel bay Economic growing

			Mossel Bay, we will have to look at the safety & security of our people.
7.	CCTV	Mr. L Van Dyk	• 8 Camera's currently belong to council out of 200 camera's the rest is all Neighbourhood watches inside this facility. • Council provide Infrastructure & free Electricity, to make sure everything is governed and run-in appropriate manner. If you want to put on camera's, it must be running through a specific process, it must run through legal services you will be given permission, and then the data runs through the Centre. • The goal is to run all the information that comes from various partners into the Centre it's build modular, infrastructure that have been created includes the screen, computer & NVR, which is board by the Neighbourhood watches, placed into the Centre remains the property of Neighbourhood watches, but is managed in appropriate manner and the information is save guarded. • In the next few weeks Mid-brak, Heiderand Golf Estate will be streaming in the Centre and be coming on board. • The objective is to run about 500 cameras', could run up to a 1000 camera's build, manage and own modular. • A decision was made for Neighbourhood Watches for a contribution of R500 a month, is the average contribution we aspect for someone to pledge. • We will start putting up infrastructure in specific areas to rollout camera's, infrastructure have been created along corridors already, to make sure we roll it out to another Centre's. • High mast will be used, will be starting as a phase 1 in the Aslam & KwaNonqaba where camera's will be rollout in high mast areas, also hotspots areas. It will enable us to see people putting up shacks illegally, illegal power connection will be spotted, fires will be seen from the air, and crime will be evaluated from these areas. • Currently using Law enforcer students to manage

			the camera's, they have been trained, screened, and be evaluated. Only appoint operator which we screened, trained at a cost and the third module is to fill in on trained Neighbourhood watches.
8.	NHW Support		46 Neighbourhood watches, 36 accredited Neighbourhood watches. - Accreditation- fill with specific requirements, screened & psychometric tested, looking at a rotational system. - Finalized all incoming streams. - NHW SLA's- No special arresting powers. - Number of camera's illegally elected in our area – to make sure it is registered. - NHW- Training phase allocated by DOCS, free of charged.
9.	Closure of meeting	Mr. L Van Dyk	Mr. Van Dyk thanked all for the meeting.
